WHAT WE HAVE—We have eight full claims—160 acres—in the GREAT JEROME, ARIZONA, MINING DISTRICT, on the same mineral belt as SENATOR W. A. CLARK'S UNITED VERDE MINE IS LOCATED. The organizers of the company were the original locators and have deeded over the property to the company.

The locators have, up to this time, put their own money into it. The work on the property has got to a point where the work is now more expensive, and it is for that reason that the company is placing this block of stock on the market. Assays from the outcropping on this property gave

Returns of \$125 Per Ton, Mostly in Gold.

It is to tap this ledge that the main tunnel on the Eureka group is now being run. If, when this ledge is cut by the tunnel, the values are one-half what they are on the top, and the ledge holds its size, the

Eureka Stock Will Be Worth More than \$1.00 per Share

Only 100,000 Shares Will be Sold at 5 cents

This company does not claim to have a developed mine with ore enough in sight with which to run a smelter, but we do claim to have one of the best prospects in the great Jerome Mining district and because it is only as yet a prospect is the reason that we are offering our stock at the low price of 5 cents per share. All of the money derived from the sale of this block of stock will be put into actual development work on the property. Our officials receive no salaries, and we pay no commissions to brokers. All our stock is sold through our general offices in Jerome. If you win in a proposition like this you win heavy. Think it over. The miners who located this group are putting their time and money into it.

Every stockholders, no matter how small his holding, will receive monthly reports of progress in development.
